Previous Minutes

The meeting was called to order at 10:00am by Ben Feinberg, SRC Chair. The November minutes were approved and accepted as submitted.

Comments from the Chair

Ben discussed the SRC charter. Other than MESH Reviews, the duties it outlines are primarily reactive. He asked if there are other pro-active things we could do or address? Last year we explored improvement of reportable accident rate. Next month Peter Lichty will present data on our improving accident status. Robin mentioned a new training class of "ES&H for Supervisors"; he will send course summary and vu-graphs to SRC members.

MESH Reviews

Scheduled for review prior to July 2002 are four divisions; EH&S, Chemical Sciences, Materials Sciences, and Computing. The teams selected are:

Genomics was added as a LBNL Division and will be included in subsequent MESH Reviews.
